## Project Synopsis

- 7000 square metres of external paving.
- Various slopes and falls

## External Concrete Paving

**Customer:** RA Minns & Company  
South Australia

The scope of this project in Mt Gambier was to do the external concrete paving for the new Bunnings Warehouse. 7000 square metres was poured over a period of about 6 weeks. The Power Rake and Copper Head were used on this project to place the concrete.

The benefits of using this equipment are:

- Cost
- Speed
- Minimal staff required for construction
- Less labour intensive for staff
